

RAID ON TACTICS

**CANINE AND HANDLER TRAINING
COURSES**

FACILITY AND TRAINING OVERVIEW

Our training facility is able to meet the high standards of training and exercise support needed to give the best and most realistic training in the world.

Our standalone 26-acre, 20 run kennel, K-9 Training facility just outside Augusta Ga. has everything needed to conduct tactical and non-tactical canine training. Our indoor detection facility has training walls, boxes and cargo mock ups for all types of detection work from explosives to drugs allowing all weather training sessions for year-round use. Our facility borders BLM land that allows maximum use of space for running obstacle courses, tracking and other training. Not to mention our 1200-acre facility allows use for tactical exercises and certifications. Utilizing real training aides for detection with all the real-world distractions that can be encountered on target.

PAYMENT OPTIONS

Raidon Tactics has a strategic partnership with the National Reconnaissance Battle Lab and each of our courses are listed in GSA. This makes payment for training easy and forthright. We also accept GPC Training Cards and are set up with multiple states as vendors for easy use for LE Departments.

Capabilities Overview

Military and Police Working Breed Puppies and Dogs

All of our working dog breeds come with full FCI or AKC credentials, APPDA assessment forms, and DNA certificates with four generations pedigrees. All of our working dogs are desensitized to gunfire and close in breaching noises.

- German Shepherds
- Dutch Shepherds
- Belgian Malinois

TSA Explosive Detection Canine (EDC) Dogs

All of our TSA EDC working dog breeds come with full imprinting on real agent odors, are trained in the specific job of Cargo screening, and are desensitized to workplace noises and activities.

- German Shorthair Pointers
- Golden Retrievers
- Mixed Breed specific hunting Dogs

Green Dogs

Pre-Selected dogs that possess the drives and traits to be trained for a desired task. All Green dogs have basic obedience and basic bite work training. All of our Green Dogs are American Protection and Patrol Dog Association (APPDA) assessed with the graded scores supplied to the client for further training and mission support.

Certified Dogs

Fully trained and certified dogs in the desired task needed.

Explosive Detection Canine (EDC)

These dogs are specifically trained to detect odors for unauthorized explosives, incendiaries, Improvised Explosive Devices (IEDs), or other destructive substances. All of these dogs are working breeds that are imprinted on real explosives, not synthetic substances. Each dog is hard working, have tremendous hunt drives and want to please their handler. An EDC is a single purpose canine for the Air Cargo and Freight industries or other civilian needs. However, for Military or Police duties a dual or multi-purpose Canine can be an Explosive Detection Canine as well.

Single Purpose K-9

Single Purpose canines are trained to perform one task, be it detection, tracking, patrol work or protection. The single purpose canine has a limited role but excels in its trained area. These dogs are superbly trained for the specific tasks desired and are provided to the client along with Handler training to familiarize the team and get them working together for specific mission support.

Dual Purpose K-9

A Dual-Purpose canine is a canine trained to perform multiple tasks but excels at two, usually patrol work and detection. Explosives and narcotics are the two most common, but it can also be Arson or contraband which is a mixture of detection odors based on a specific need. Although called “Dual Purpose” many canines are also trained to track and conduct article searches for sensitive evidence-based items. These dogs are superbly trained for the specific tasks desired and are provided to the client along with Handler training to familiarize the team and get them working together for specific mission support.

Stud Dog Services

Call for pricing and Breeds available

Litter Whelping

On request our qualified staff can whelp and begin stimulus training on /for your litter.

Litter planning and Management

We can help find and select a proven Stud or Dam for your dog of the same breed. Assist in the decision of bloodlines to choose and how to manage the breeding and litter. We can also assist with placement and sales of your litter if desired.

K-9 Supervisor Class

Supervisors and Administrators are liable for their K-9 Teams. Lack of knowledge is not a defense to vicarious liability. This class will give you the knowledge needed to properly manage a K-9 Unit. A 24 hour class that uses classroom theory and practical field training to provide a K9 Unit Supervisor or Administrator the knowledge needed to manage a K-9 Unit. We present a student with information based on current case law, industry standards, and extensive K9 experience. This class is great for any personnel tasked with the administrative maintenance or management of K-9 Team or K-9 Unit.

Course Objectives

Reduce liability through consistent and applicable K9 operations.

Recognize abnormal team techniques, deployments, and documentation using class provided information.

Utilize civil and criminal case law to appropriately draft or apply operating policies and procedures.

Display a full understanding of management requirements based on case law and industry standards.

Course Syllabus

Handler Legal

K-9 Report Writing

The most requested courses Handlers and K-9 Supervisors want is "report writing". For years the K-9 Deployment Report has been equated to the police report or a training record. Raidon Tactics Inc. wants to end that thought. The K-9 Deployment Report is an essential aspect of our documentation of an incident that not only accurately documents our actions on scene, but also our actions in training and previous deployments.

This is a 16 hour K-9 Deployment Report Writing Course for K-9 Handlers or K-9 Supervisors that uses classroom theory, practical exercises, and testing to teach a student to write a K-9 Deployment Report. K-9 Handlers will learn how to document a K-9 Deployment, write reports to the current and evolving standards of the Police K-9 world. K-9 Supervisors will learn to read and understand K-9 reports and what to look for before approving incomplete or improperly written reports. This proactive K-9 deployment report course will assist a student in courtroom testimony by preparing for court months before with a report that contains vital information necessary for prosecution, building reliability in the team, and providing information that supports your deployment.

Course Objectives

A Student will use what they are taught to have a full understanding of the basic report writing and K-9 Deployment Report Writing. A student will understand requirements of elements of the K-9 Deployment Report as it relates to Case Law. A student will acquire the information and statistics needed to effectively write all basic elements of K-9 Deployment Report. A student will use information contained within their K-9 Deployment Report to testify to a K-9 Deployment.

Course Syllabus

Elements of a K-9 Deployment Report
Detection, Tracking, and Patrol Deployment Reports
K-9 Search Warrants and Affidavits
Professionalism in Report Writing
Reliability and Certification Reporting
On-Scene Report Writing and Technology
Courtroom Testimony
Case Law

Number Hours: 16 Hours

Raidon Tactics Inc. has the K-9 Capabilities needed in todays world, whether you are a Department just starting a canine program or have had one for years. We will assist your teams with our experience, from Afghanistan and Iraq and other wars around the world as Special Forces (Green Berets) Qualified Dog handlers and Assaulters or Snipers, or as Urban Search and Rescue handlers or Law Enforcement Handlers. We have the perfect blend of trainers to help you. Our blended approach gives the best all-around experience you will be able to find.
